MEAT AND MUSCLE BIOLOGY

[HTTPS://WWW.IASTATEDIGITALPRESS.COM/MMB](https://www.iastatedigitalpress.com/mmB)

Meat and Muscle Biology™

Meat and Muscle Biology is the premier, international, fully open access journal that is a publication home for a broad scope of high quality, peer-reviewed manuscripts on all aspects of meat science (including meat derived from domestic mammals, avian species, aquaculture species, amphibians, wild capture mammals, synthetic meat analogs and cell culture) applied muscle biology and related topics.

Meat and Muscle Biology is published by the [Iowa State University Digital Press](#) for the [American Meat Science Association](#).

Introduction

by Sarah Nusser

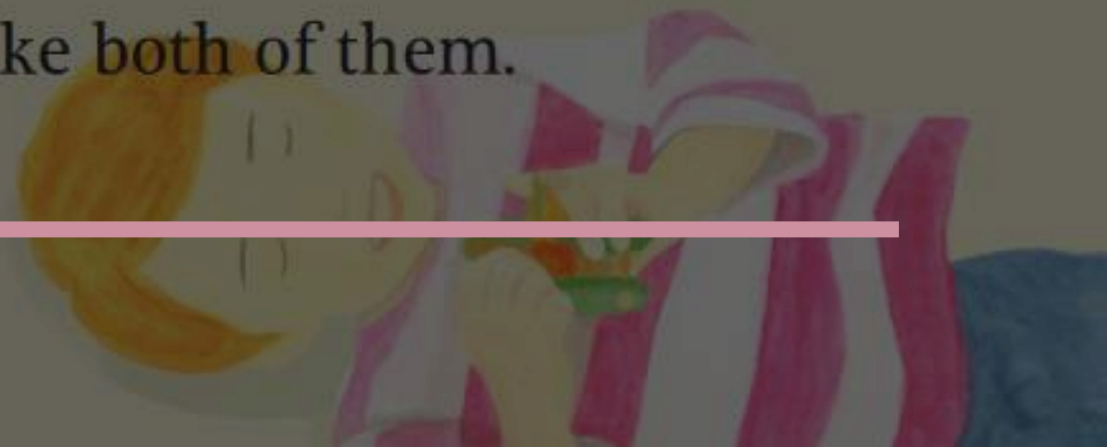

이름이 두 개라서 헷갈리기도 하고,
인사하는 법이 달라서 헷갈리기도 해.
그래도 괜찮아. 둘 다 좋은걸.

Sometimes, it's confusing.

Having two names and having two completely
different ways of saying hello are confusing.

Yet, it's just fine. I like both of them.

Description

This book was created by the group of Changing the Gap Parents Book Club, happened in Ames, Iowa in 2020. We first developed the idea of the Korean parents' book club came by the research findings that parents are the main Heritage culture provider for immigrant children, but the first-generation parents of immigrant youth have difficulty accessing and understanding second-generation children's experience in or out of USA schools due to language barriers and cultural differences. Particularly, Korean immigrant parents, those from one of the least diverse countries in the world, tend to have a shortage of authentic knowledge and experience of racial, cultural and linguistic diversity. In this book club, the Korean parents read children's books about diversity and Korean Americans and went forward to create a story that Korean American children can make a good connection with. This book is full of the parents' efforts to make connections to their children and full of the parents' hearts to support all Asian American students to grow their true dreams no matter what obstacles they encounter.
